UNICA TOUCH

The first mid-range scales with Android™ touch screen control, for users who demand performance and innovation. The unit has a 10" touch screen with high sensitivity capacitive sensing and the option to be reconfigured even in self-service mode: the new development in the UNICA product family. The touch screen keypad can be configured with images, pictograms or simply text descriptions. Articles can be called up with an automatic selective search function. Product images can also be downloaded directly from a smartphone. The "easy loading" printer is compatible with linerless paper. With its high performance standard features, UNICA TOUCH is ideal for any grocery store, as well as any outlet that requires a modern set of scales.

TECHNICAL FEATURES

- Tare: 16
- Ingredient texts: 50
- Receipt header: Yes
- No. of PLUs: 3000
- Serial ports: 2 RS232 1USB 1ETH ports for connection to a PC, scanner or cash register
- Up to 6 sets of scales can be networked together (RSR485)

- Logo 1 progr. graphic
- VAT rates: 7
- Receipt deletion and reopening: Yes
- Change calculation: Yes
- No. of Users: 15
- User name printing
- Product groups: 10 + 40
- Payment systems: 5
- Freeform Barcode: Yes
- Article description 24 characters
- 6 departments, for heading text customization
- QR code printing
- Data collection receipt at cash register
- Dimensions L x W x H (mm):
368 x 460 x 184; 373 x 456 x 556; 414 x 341 x 600
- Capacity: 6/15 kg, 12/30 kg
- **120 Soft**, PC software for archive programming and recovery of end-of-day totals

PRINTER

The tried and tested Custom printer, with its easy loading system for standard thermal paper (57mm/30mt), can also be configured for linerless rolls without modification.

DISPLAY

Even more innovative in terms of size, but above all in terms of the brightness and contrast of the LED backlit LCD screen of the entire UNICA range.

KEYBOARD

10" capacitive touch screen featuring a virtual alphanumeric keyboard and large PLU display area, with the option to insert an unlimited number of codes.

CONNECTION OPTIONS

Up to 6 scales can be connected via a network thanks to the NET version, enabling the UNICA TOUCH system to set up a small service network. The scales can be programmed using the PC Suite software.
